

LIMITED WARRANTY

TIRE OWNER'S ADJUSTMENT POLICY

AUTO TIRES

The Goodyear Tire & Rubber Company
1144 East Market St.
*Akron, Ohio 44316

LIMITED WARRANTY

RADIAL TIRE ADJUSTMENT POLICY

1. ADJUSTMENT POLICY ELEGIBILITY

- a) Workmanship and Material Adjustment Policy Applies to All Owners Of:
 - Passenger Cars • Light Trucks • Recreational Vehicles
 - Rental and Lease Vehicles
- b) Road Hazard Adjustment Policy Applies to All Owners Of:
 - Passenger Cars Including Rental and Lease Vehicles in Passenger Car Service
- c) Tread Life Expectancy Policy Applies to the Original Owner and Original Application Of:
 - Passenger Cars Including Rental and Lease Vehicles in Passenger Car Service

2. WHAT IS COVERED AND FOR HOW LONG

- a) Workmanship and Material — If tires in passenger car service during the first 180 days (as evidenced by certificate or new car owner purchase date) or during the first 10% of tread wear (In the case of tires mounted as spares on new passenger cars, or when purchase date evidence is not available) become unserviceable due to workmanship or material related conditions, they will be replaced at no charge. (See item 6b for Owner's Obligation Charges)

After the first 180 days of service, or 10% of tread wear if applicable, such tires will be prorated on mileage up to 40,000 miles, or on tread wear, whichever is to the customer's advantage.

Tires used on light trucks or recreational vehicles which become unserviceable from a workmanship or material related condition during the first 180 days (as evidenced by invoice or new vehicle owner purchase date) or during the first 10% of tread wear (In the case of tires mounted as spares on light trucks or recreational vehicles, or when purchase date evidence is not available) will be replaced at no charge. (See item 6b for Owner's Obligation Charges)

After the first 180 days of service, or 10% of tread wear if applicable, such tires will be prorated on the basis of tread wear for the remainder of the original tread life.

- b) Road Hazards — If a tire fails due to a road hazard condition, replacement charge will be based on the % of tread wear delivered, or a minimum charge of \$5.00, whichever is greater. (See item 6b for Owner's Obligation Charges) Adjustments will be prorated on the basis of tread wear only up to 50% of the original tread life. No road hazard adjustments will be made after 50% of the tread life has been delivered.
- c) Tread Life — Your set of Goodyear Radial tires have a tread life expectancy of at least 40,000 vehicle odometer miles. If the tread on any tire wears down to the tread wear indicators before 40,000 vehicle odometer miles, the tire will be replaced with a new tire on a 40,000 mile pro rata basis. This tread life expectancy cannot be expected to be achieved if the tire owner abuses his tires by failing to maintain proper inflation pressure and to rotate his tires if indicated by irregular tread wear pattern.

3. HOW PRO RATA CHARGES ARE CALCULATED

In the case of mileage based adjustments, the percentage of actual mileage as indicated on the odometer at failure or wear out to 40,000 odometer miles is to be applied to Goodyear's printed "Predetermined Price for Adjustment" current at the time of adjustment in order to obtain the pro rata charge for the new tire.

In the case of adjustments based on tread wear, the percentage of actual wear as indicated by the original tread depth delivered at the time of failure is to be applied to Goodyear's printed, "Predetermined Price for Adjustment" current at the time of adjustment in order to obtain the pro rata charge for the new tire.

The "Predetermined Price for Adjustment" will fairly represent the retail selling price of the comparable new tire at the time of adjustment. A printed "Predetermined Price for Adjustment" is available at all Goodyear Service Stores, Goodyear Tire Centers, participating Goodyear Tire Dealers and Vehicle Dealers equipped to handle Goodyear tire adjustments.

4. WHAT IS NOT COVERED BY THE ADJUSTMENT POLICY

a) General Adjustment Policy Exclusions:

- Failure or loss due to accident, fire, chain damage, racing, theft, misuse and negligence.
- Tires on any car registered or operated outside the United States or Canada.
- Loss of time, inconvenience, loss of use of the vehicle or other consequential damages.
- Tires transferred from the vehicle on which they were originally installed.

b) Road Hazard Adjustment Policy Exclusions:

- Repairable cuts and punctures.
- Tires used on trucks, recreational vehicles, campers, trailers, vehicles used in racing, and passenger cars in special applications such as taxi service.

c) Tread Life Expectancy Exclusions:

- Tires used on trucks, recreational vehicles, campers, trailers, vehicles used in racing, and passenger cars in special applications such as police and taxi service.
- Tread Life Expectancy Policy voided if rotations and alignment checks and corrections, if required, are not made.

5. TIRE MANUFACTURER'S OBLIGATIONS

Repairs or replacements qualifying under the Adjustment Policy will be made by any participating Goodyear Service Store, participating Goodyear tire dealer, or participating vehicle dealer.

6. OWNER'S OBLIGATIONS

- a)** It is the Owner's responsibility to detect any uneven or irregular tread wear that may occur at any time during the life of the tires and have an inspection made to determine the cause so that appropriate corrections can be made. Corrections of any uneven or irregular treadwear is a condition of the Tread Life Expectancy Policy.
- b)** Replacement under any portion of this Adjustment Policy does not include local sale taxes, Federal Excise taxes, applicable dealer charges nor charges for services such as mounting and balancing — such additional charges, if any, current at the time of adjustment, will be borne by the customer.

LIMITED WARRANTY BIAS AND BIAS-BELTED TIRE ADJUSTMENT POLICY

1. ADJUSTMENT POLICY ELIGIBILITY

- a) Workmanship and Material Adjustment Policy Applies to All Owners Of:
 - Passenger Cars • Light Trucks • Recreational Vehicles • Rental and Lease Vehicles
- b) Road Hazard Adjustment Policy Applies to All Owners Of:
 - Passenger Cars Including Rental and Lease Vehicles in Passenger Car Service

2. WHAT IS COVERED AND FOR HOW LONG

- a) Workmanship and Material — If tires in passenger car service during the first 180 days (as evidenced by invoice or new car owner purchase date) or during the first 10% of tread wear (In the case of tires mounted as spares on new passenger cars, or when purchase date evidence is not available) become unserviceable due to workmanship or material related conditions they will be replaced at no charge. (See item 6b for Owner's Obligation Charges)

After the first 180 days of service, or 10% of tread wear if applicable, such tires will be prorated on tread wear for the remainder of the original tread life.

Tires used on light trucks or recreational vehicles which become unserviceable from a workmanship or material related condition during the first 180 days (as evidenced by invoice or new vehicle owner purchase date) or during the first 10% of tread wear (In the case of tires mounted as spares on light trucks or recreational vehicles, or when purchase date evidence is not available) will be replaced at no charge. (See item 6b for Owner's Obligation Charges)

After the first 180 days of service, or 10% of tread wear if applicable, such tires will be prorated on the basis of tread wear for the remainder of the original tread life.

- b) Road Hazards — If a tire fails due to a road hazard condition, replacement will be based on the actual % of tread wear delivered, or a minimum charge of \$5.00, whichever is greater. (See item 6b for Owner's Obligation Charges) Adjustments will be prorated on the basis of tread wear only up to 50% of the original tread life. No road hazard adjustments will be made after 50% of the tread life has been delivered.

3. HOW PRO RATA CHARGES ARE CALCULATED

The percentage of actual wear as indicated by the tread depth remaining at failure is to be applied to Goodyear's printed "Predetermined Price for Adjustment" current at the time of adjustment in order to obtain the pro rata charge for the new tire. The "Predetermined Price for Adjustment" will fairly represent the retail selling price of the comparable new tire at the time of adjustment. A printed "Predetermined Price for Adjustment" is available at all Goodyear Service Stores, Goodyear Tire Centers, participating Goodyear Tire Dealers and Vehicle Dealers equipped to handle Goodyear tire adjustments.

4. WHAT IS NOT COVERED BY THE ADJUSTMENT POLICY

- a) General Adjustment Policy Exclusions:
